Immersion oils, microscope slide

A range of oils for normal light or fluorescence microscopy. Supplied with a listing of optical and physical properties.

Supplied in 120mL bottle.

Catalogue No	Legacy No	Alt. No	Description
11328113	-	4105	Type A low viscosity, 150 centistokes, Cargille
11338113	-	4106	Type B medium viscosity, 1,250 centistokes
11358113	-	4109	Type FF for fluorescence microscopy, 170 centistokes
